

PEDESTRIAN PUSHBUTTON

PB-3-1005

- *Magnetically Actuated Reed Switch; No Direct Mechanical Contact!*
- *1/2" Threaded Conduit Hub Provided, with Plug*
- *Accessory Spacer Available for use with Flat Surface Mounting*
- *Your Choice of Allen-Head Cap Screws or Spanner-Head Screws for Securing the Cover*
- *All Screws are Stainless Steel*
- *Rain-Tight Neoprene Gasket Provided*
- *Your Choice of Powder-Coated Finish*

The General Traffic PB-3-1005 was designed to provide a maintenance-free pedestrian pushbutton utilizing a magnetically actuated, vacuum-sealed reed switch assembly. It has a life expectancy of approximately 20 million operations! Other features are similar to our standard model, the PB-3-1000.

Boo-Boo Kitty says, "You people know how to push my buttons!"
