

SIDE OF POLE BRACKETS - 2-WAY

Aluminum - "T" Type

"Band-Or-Bolt-to-Pole!"

SOP-2W-T-875

Please specify powder-coated finish when ordering.

All fittings and hubs are #413 Aluminum Alloy (Die-Cast for precision fit). All pipe nipples are 6061-T6 aluminum heavy wall schedule 80. Anti-seize lubricant coats mating threaded parts. All threads are precision cut 1¹/₂ - 11¹/₂ NPSM and are gauged to tolerance. Chase nipples are available in aluminum, bronze and ductile iron (aluminum die-cast is standard).
