Boo Boo Kitty Says:

"Buy some before they let the cat out of the bag!!!!"

Please specify powder-coated finish when ordering.

General Traffic has Corrected the flaws of the existing cast iron wire entrance "goosenecks" being sold by our competitors and we present our version, WE-725F, for your review. Durable, Ductile Iron is used in the casting construction for many years of worry-free service in the field. A job - designed "sweeping" wireway throat will enable electricians quicker installations.
