

PEDESTRIAN PUSH BUTTON ASSEMBLY

PBA - 1020ADA

- *Magnetically Actuated Reed Switch; No Direct Mechanical Contact!*
- *Rear Pole Guides Adjust to any Size Pole -You Don't Have to Stock Many Different Sizes.*
- *Fully "ADA" Compliant*
- *2" Solid Brass Actuator - Tough Chrome Plated.*
- *Your Choice of Allen-Head Cap Screws or Spanner-Head Screws for Securing the Cover (All Screws are Stainless Steel)*
- *Mounts 9" X 12" Signs in Cast Aluminum Frame*
- *1/2" Threaded Conduit Hub Provided, with Plug*

"Many Different Signs are Available!"

The PBA-1020ADA accepts 9" x 12" pedestrian signs. The popular GTE Corp. PB-3-ADA-2 pedestrian pushbuttons are mounted to the sign frame and are easily removable, if desired. Adjustable pole guides allow adaptation to many different diameter poles, so that your inventory is reduced to one unit.

Please specify powder-coated finish when ordering.
