

Vehicle Traffic Signals

8" Aluminum Signal

- **MATERIAL**
Signals are pressure die-cast of aluminum alloy 413 in accordance with ASTM-B85.
- **HOUSING**
One-piece die-cast aluminum unit with serrations in 5° increments at each end, so that they may be fastened together to form multi-section signals. Each housing has provisions for mounting two terminal blocks and attaching backplates.
- **DOOR**
One-piece die-cast aluminum unit equipped with stainless steel hinge pins. One stainless steel captive eyebolt and wing nut permit easy access to the inside of the housing.
- **VISOR**
One-piece formed aluminum unit. The removable twist-on visor is secured to the door with stainless steel hardware. Cap, tunnel, and full circle visors are available. The interior of the visor is coated with a non-reflective, matte black paint.
- **MOUNTING EASE**
Positive Positioning and locking are achieved through the use of serrated fittings, mast arm brackets or span wire mounts.

LED units installed are

GE current
a Daintree company
