General Traffic's pedestrian pushbutton quality is legendary! Now, we've married the very successful Reed Switch model with a "cast-raised legend" 5" x 7 3/4" instruction plaque. With pedestrian instruction in a universally accepted international symbol format, even the visually impaired will have an easier time crossing the street. Designed to fit poles with a 4.00" or larger diameter, either 3/8" bolts or banding straps will complete the installation.

The General Traffic ADA Series Pedestrian Pushbuttons were designed to be in compliance with the "Americans with Disabilities Act." The pressure needed to actuate our pushbuttons is less than 4 lbs! Find out how economical it is to put your City in compliance with the ADA law!
