

SIGNAL BACKPLATES

12 Inch • Scalloped Style

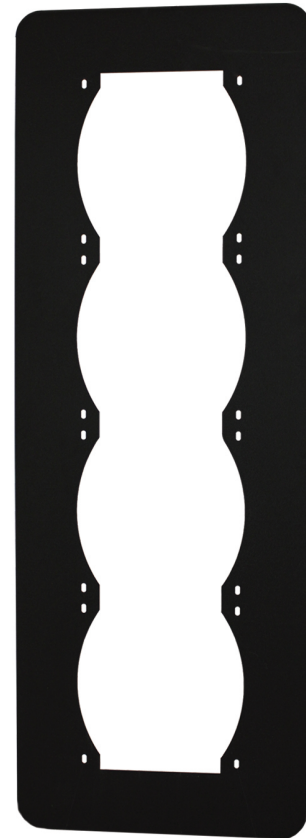

STANDARD FORM FITTING DESIGN

- *Stamped from 5052-H32 Aluminum.*
- *Standard form fitting "Scalloped Style" design for a better signal fit*
- *Nominal Thickness of .050"*
- *3" Corner Radius - All Corners*
- *Stainless Steel Screws and Washer Tabs provided for mounting*
- *5/8" Formed Stiffener on longer sides gives much higher Rigidity and Structural Integrity*

A Textured Flat Black paint is used as an added preventative for reflection of sunlight. We take these necessary steps to ensure drivers safety out on the road.
